

DES - DESE

Key switch

All-inclusive security

The key switch designed to directly activate all doors, gates and everything else that can be activated with an automation made by Life Home Integration. It is available with a universal cylinder lock (Des) and with a European cylinder lock (Dese). This ensures greater resistance to any attacks,

making this key switch (and therefore the whole automation system) less vulnerable.

Choose Des or Dese if you are seeking a more secure key switch.
