

DREAM

Reliable, even in contact with water

Resistant but flexible at the same time, Dream features a new design: the keys, made with a soft material, are integrated into the sturdy plastic on the remote control. In this way there are no cracks, so water cannot get in and the radio control unit lasts much longer.

Choose Dream if you are seeking a durable remote control.

- Uses rolling code protocol.
- Three functions with just two keys: by pressing the two keys you can program the third channel.
- Innovative design.
- 3V Battery.
- Wide range.
